

LLMusic Supplementary Material

June 2026

1 Purpose of this Document

This document contains the complete prompt templates used in the LLMusic experiments. It is provided as supplementary material in the public repository to facilitate reproducibility and inspection of the prompt engineering strategies adopted in the study.

Specifically, this document includes:

- The few-shot examples used in the Few-Shot baseline;
- The topics and evaluation criteria employed in the Chain-of-Thought (CoT) prompting strategy;
- The structure of the CoT prompt used during inference.

2 Few-Shot Prompt for Topic Classification

3 Chain-of-Thought Prompt Structure

Table 1 describes the structure used to instantiate the Chain-of-Thought prompt for each topic.

Table 1: Structure of the Chain-of-Thought Prompt

Component	Description
System Prompt	Defines the model as a specialist in thematic classification of song lyrics. The model must evaluate each criterion separately and conclude with a score from 1 to 5.
Topic Description	Semantic definition of the topic being evaluated.
Criteria	Three topic-specific criteria formulated as guiding questions.
Instruction	Requests the model to evaluate each criterion, explain its reasoning, and assign a final score.
Lyric Excerpt	Song lyric segment under analysis.
Output	Criterion-by-criterion reasoning followed by: NOTA: X .
Scoring Scale	1 = no criterion satisfied; 2 = few criteria weakly satisfied; 3 = some criteria moderately satisfied; 4 = criteria strongly present; 5 = all criteria strongly present.
